February 2018

GRADE 3

A message from Ms. Abby

It is mandatory homework for students to complete I-Ready every night.

Monday: 30 minutes Reading

Tuesday: 30 minutes Math

Wednesday: 30 minutes Reading

Thursday: 30 minutes Math

Friday: 30 minutes Reading

Many students are not meeting this goal; **please ensure your student logs into I-Ready and completes the required minutes.** This will assist them in achieving higher results on the final I-Ready diagnostic test. *It is vital that students read daily. Third grade students should be reading chapter books if their level permits it!* This will help prepare students for the 3RD Grade FSA ELA test in April.

Students will benefit from completing Studies Weekly Online. This is in addition to I-Ready. Students can access their Science and Social Studies lessons using their username and password. The username and password is the same as I-Ready. Once they are logged in, they can hear the magazines read to them, answer practice questions, and play interactive games. Students really enjoy this website ☺

Important Dates to Remember

2/13 Family Math Night at 6:30pm

2/19 NO SCHOOL- Holiday

2/22 Early Release- 12pm

WANTED:

-We need Lysol Wipes!

-Extra snacks to have on hand.

- Small water bottles for after recess.

Florida Curriculum

Reading: The next two Portfolios focus on Government and Citizenship. These portfolios align with 3rd Grade Social Studies Standards. The portfolio focused on how to better understand informational text and text features. It is important that students pay close attention and remain focused during instruction of portfolios, as they are direct preparation for the 3rd Grade FSA ELA test.

Writing: We are on Unit 3 of the WriteSteps program. This unit focuses on informative/explanatory writing. Students will be expected to write a response to given passages.

Math: We are learning about Fractions in the month of February: Fractions on a number line and Equivalent Fractions. Please make sure your child is still working on memorizing the multiplication facts at home.

Science: Please have students access these lessons:

-Week 2 Tiny Life

-Week 3 Cell Development
